## Enjoy the beautiful beach and interact with students

Enjoy luxurious hotels, beautiful resorts, Philippine delicacies, exotic stores and markets and modern shopping plazas at reasonable prices while serving the call of your heart to be involved in a mission for children. Over 14 million poor children in the Philippines live in appalling conditions, but it is these children who have the potential to break the cycle of deprivation for future generations. They are the teachers, doctors, journalists, engineers and politicians of future. On this mission trip, you can enjoy some of the wonderful experiences Philippines has to offer and be involved in the lives of more than 700 underprivileged children registered in the schools.
